About Us

Since 1924, GEORGII KOBOLD has been known as a premium electromechanical drive system manufacturer. GEORGII KOBOLD currently employs 85 highly qualified and highly motivated employees, all of which make customer service their top priority. At GEORGII KOBOLD you will find motors ranging from brushless AC servo to three-phase induction; gearing ranging from inline planetary to magnetic; motors and gearboxes offered as standalone products or integrated into one product.

e-F@ctory Solutions Provided

In the production of food and pharmaceuticals, exceptionally high hygiene standards are in place to protect consumers and their health. The motors used in the production process must also meet these stringent requirements. Therefore, GEORGII KOBOLD offers geared motors and torque motors in hygienic design, which can be customized to suit the specific needs of the products being manufactured. These IP69K motors are resistant to aggressive and effective cleaning and disinfecting agents.
