

CRANE & HOIST OEM CHALLENGES SOLVED WITH PURPOSE-BUILT VFD SOLUTIONS

Configuration complexity

burdens engineering and increases costs

Crane-Ready Out of the Box

Pre-configured VFDs for crane and hoist service, no programming needed

- ▶ **Integrated PLC** and auto-tune simplify installation
- ▶ **Responsive expert support** here when you need it
- ▶ **Compatibility** with conical motors

Drive failures

disrupt production schedules and erode customer satisfaction

Quality You Can Count On

Industry-leading 5-year warranty

- ▶ **<50 ppm** failure rates
- ▶ **Life diagnostics** for preventative maintenance and maximum uptime
- ▶ High-temperature tolerant for **durability** in harsh environments

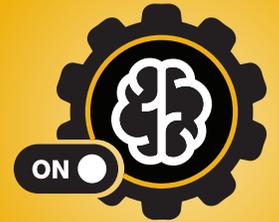

Skilled labor shortages

increase safety risks, training time, and equipment wear

Smart Control Built-in

Pre-packaged features enable precision handling and safety

- ▶ **Anti-sway** reduces operator skill requirements
- ▶ **Infinite speed control** enables smoother starts and stops
- ▶ **Brake sequencing** and **torque-at-zero -speed** ensure secure load handling

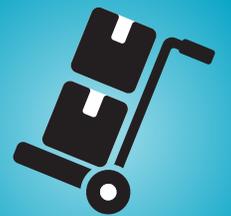

Component stockouts

cause parts churn, substitutions, and costly production delays

VFDs Ready When You Need Them

95% next day availability protects your production

- ▶ **Timely shipments** scheduled around your needs
- ▶ **Nationwide** distribution network
- ▶ **40+ years** of **parameter consistency** future-proofs your investment

SIMPLIFY YOUR NEXT OVERHEAD CRANE & HOIST BUILD OR RETROFIT

Discover our purpose-built VFDs for control that never wavers.
