MES Interface IT/US

SOFTWARE TRAINING

Course Description

MES Interface IT/US	
Course Code	TRNET202P
Length	3 Days
Price	\$1125
Prerequisite	None

INTRODUCTION

This course will cover programming of the MES IT and MES US modules thru the WorkBench software. The software is basically identical for both modules. MES IT will be used for this class.

WHO SHOULD ATTEND?

Technicians, engineers, SQL programmers and IT personnel can all benefit from this class.

COURSE HARDWARE

Only the QJ71MES96IT and the QJ71MES96US are covered. The QJ71MES96 and the RD81MES96 are different products and are not covered in this class.

PREREQUISITES EXPLAINED

The following programming skills are useful but not necessary: An understanding of integers, booleans, timestamps and other data types, and an understanding of databases and SQL programming. Actual experience with PLC programming is not a prerequisite. Actual experience with SQL is not a prerequisite. Some fundamental programming knowledge such as For Loops, Move Instructions, Wait Instructions, Local vs Global variables, etc.

COURSE OUTLINE

- LESSON 1 Introduction & Overview
- LESSON 2 Triggers/Actions/Devices
- LESSON 3 Databases/Transports/Transport Maps
- LESSON 4 Log Files/Reports
- LESSON 5 Troubleshooting
- LESSON 6 Installing Software
- LESSON 7 Differences between MES IT & MES US
