INTRODUCTION

This course is intended to introduce the FR-A800 Variable Frequency Drive (VFD). It is designed to give the attendee a thorough knowledge of the advanced features, parameters, and troubleshooting of the FR-A800. This class will be taught using the FR-A820 drives and FR Configurator2 software.

WHO SHOULD ATTEND?

Students responsible for installing, configuring and troubleshooting FR-A800 Series inverters.

COURSE HARDWARE

FR-A800 Series VFD with encoder equipped induction motor

PREREQUISITES EXPLAINED

Basic VFD drive principles and parameter setting method are required prerequisites to attend this class. A student must have a basic understanding of electronics principles, exposure to industrial control concepts and prior use of a Mitsubishi Electric inverter product.
