About Us

Delta Computer Systems, Inc., also doing business as Delta Motion, designs, manufactures, and markets single and multi-axis motion controller and accessory products for industrial servo-hydraulic and servo-electric closed loop position, velocity, and pressure/force applications. It offers motion controllers, accessories such as voltage-to-current and signal converters, cables and connectors, motion software products, and training and technical support services.

e-F@ctory Solutions Provided

Delta Motion and Mitsubishi Electric brings unique product portfolios together to offer customers easy and reliable closed-loop control of electro-hydraulic applications.
