About Us

Founded in 1984, EPLAN provides software and service solutions in the fields of electrical, automation and mechatronic engineering. The company develops one of the world's leading design software solutions for machine and panel builders. EPLAN is also the ideal partner to streamline challenging engineering processes.

e-F@ctory Solutions Provided

EPLAN and Mitsubishi Electric have collaborated to provide electrical engineering data and tools to speed design and development when using our industrial automation products. These tools are used by a number of global customers across a wide range of industries.
