About Us

Founded in 1977, Mesta Electronics specializes in the design, development, and manufacture of advanced power quality and power conversion equipment. Mesta's products offer innovative design, superior efficiency, and exceptional reliability, ranging from highly advanced harmonic filters to extremely precise induction heating power supplies.

e-F@ctory Solutions Provided

Mesta and Mitsubishi Electric have partnered together to provide harmonic mitigation solutions for our low voltage variable frequency drive portfolio.

Complementary Products

Variable Frequency Drives

Core Technology

Harmonic Mitigation
