

Start-Up Service

Your new Mitsubishi Electric variable frequency drive (VFD) has been designed, built, and delivered. But you know as well as anyone that the project isn't over yet. You still need to get your system started and time is of the essence. Why not make things easier on yourself?

Mitsubishi Electric's Start-Up Service will provide you with confirming all connections, checking parameters, and verifying functions of your new VFD, allowing you to reduce the time to production starting on your new investment.

- **This service is available for any Mitsubishi Electric product** with VFDs being the most common case. Start-up can also be performed for panel systems.
- **Mitsubishi Electric is 100% responsible** for the product and start-up.
- **Warranty extension to 5 years** on FR-A and FR-F Series VFDs when start-up is performed by Mitsubishi Electric Automation trained and authorized service staff.
- **We offer direct manufacturer support** if an issue is encountered including to Japan, if necessary.
