MX OPC

OPC is a great way for users wanting to communicate from their PC to Mitsubishi Electric hardware devices. The MX OPC server contains all the Mitsubishi Electric protocols available to successfully communicate from Mitsubishi Electric hardware devices to any OPC Client. MX OPC Server is also capable of spanning multiple networks as it relays data to and from the OPC Client. Supported Mitsubishi Electric protocols include programming port, serial, Ethernet, MELSECNET/10, CC-Link and others. Supported hardware includes FX, A, QnA and Q Series devices plus selected CNC devices.
